ASL Pride and Cochlear Implants: Can they co-exist?

Acacia Hixson

At age 2, Acacia “Kacie” was stricken with spinal meningitis and became deaf. She was taught to communicate in three different ways: Spoken English, Signed Exact English and ASL. Then, at 18 years old, she obtained her cochlear implant. She currently works as a youth group leader for the Ohio School for the Deaf and resides in Columbus with her hearing husband who has Deaf relatives who use ASL.
